

# Netivot Shalom Plans for Renovating our Home

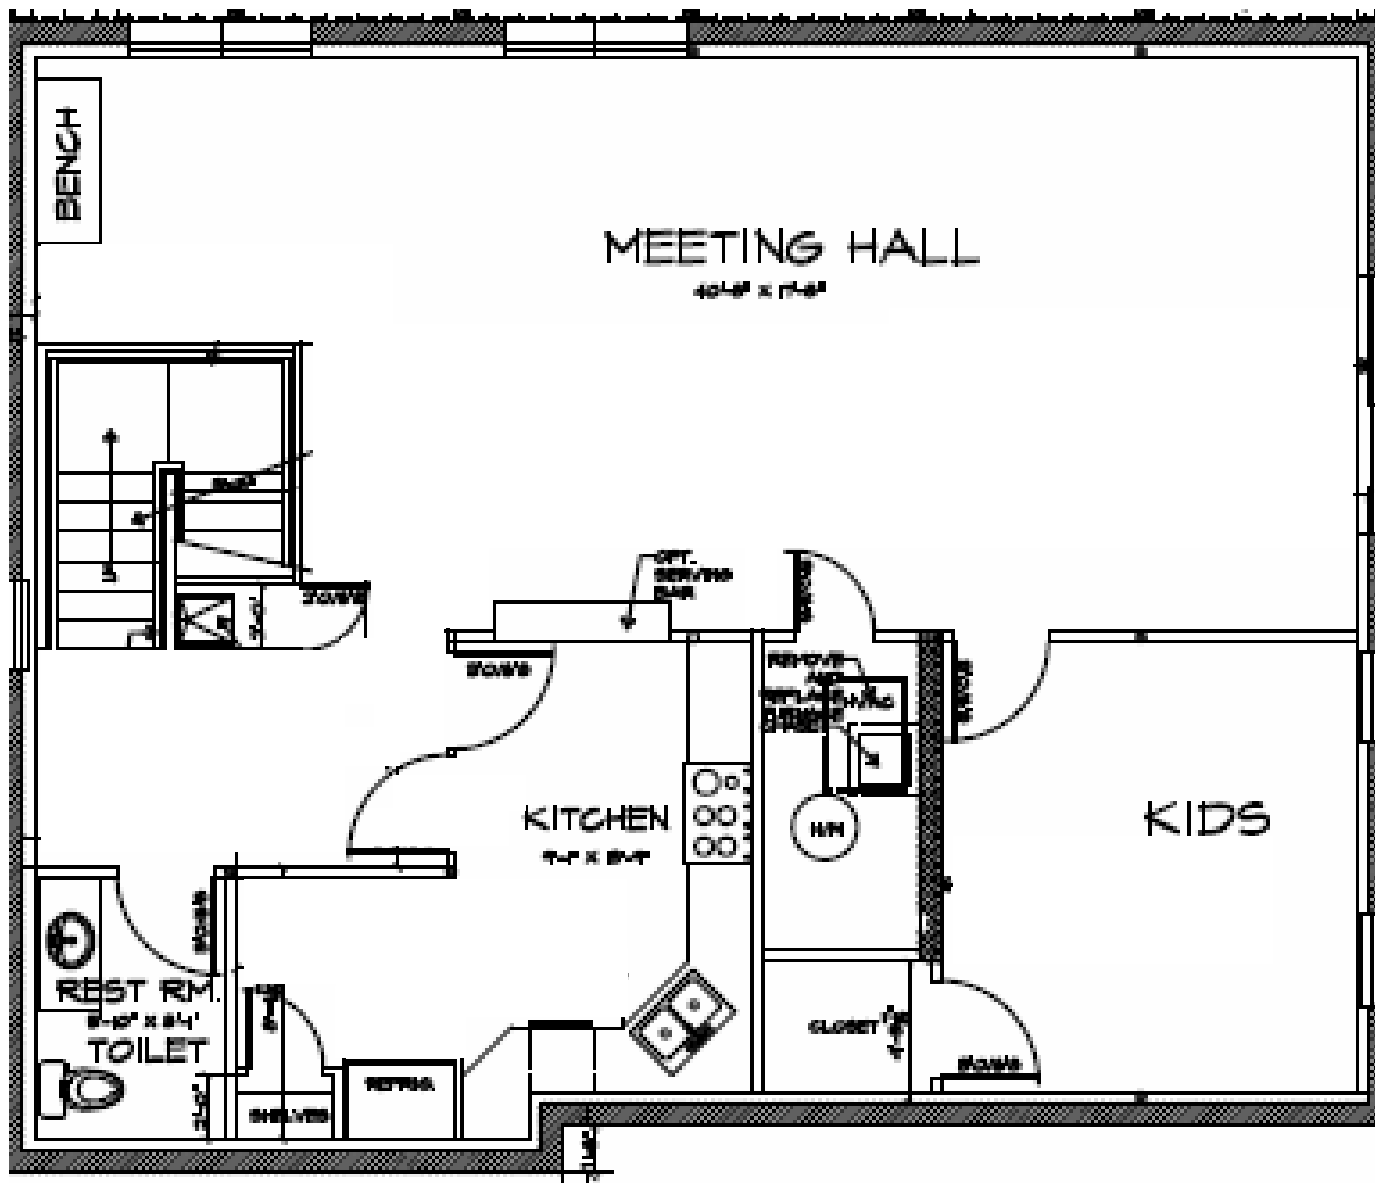

*A Modern Orthodox Community  
Where Everyone Has a Voice*

The congregation of Netivot Shalom has approved a plan to improve our current home! We will be fully renovating the synagogue, including increasing the sanctuary size by 50% and moving it to the main floor. We will include a fully functional kitchen and larger kiddush space allowing us to host upcoming smachot. Please feel free to contact the head of our building committee, Dan Arking ([arking@jhmi.edu](mailto:arking@jhmi.edu)), with any questions about the plans (shown below). We welcome all support for our endeavor, and donations can be made directly through our website: [www.netivotshalom.net](http://www.netivotshalom.net).

**First Floor – new 950 sq. ft sanctuary, adjacent deck with built-in sukkah.**

**Basement – full kitchen, increased kiddush space, kids groups rooms.**
